SPECTRA COLLECTION: OCEAN
The Classic Collection

Color plays an integral role in the architectural environment; the timeless palette in our Classic Collection reflects your passion for what’s possible. From classic neutrals to biophilic hues, this line offers a wide range of options to help you give shape to great ideas.

The Spectra Collection

To add a dynamic element of fascination and movement to any architectural facade, these transitional finishes celebrate the natural color shifts that occur in the world around us – from raw natural elements to the glowing luster and sheen found in modern alloys and luxury finishes.

The Anodized Collection

In addition to the strength and high-quality appearance that comes standard with our collections, this line uses the anodizing process to enhance the intrinsic clarity and beauty of aluminum while creating a harder, smoother, more durable surface.

The Natural Collection

Biophilic design conceptualizes spaces in a way that acknowledges the human need to connect with nature. The finishes in the Natural Collection amplify the organic beauty and character of different elements & materials found in the world around us.

The Element Series finishes unify the effortless appearance of organic metals & finely textured patterns to create a vivid & memorable impression while retaining the luster of aluminum from afar.

The Terra Series is inspired by iridescent stone & the mesmerizing beauty of crystalline surfaces, creating a unique, organic and natural ambiance.

The Woodgrain Series exemplifies the inherent beauty & character of natural wood unifying its effortless appearance with the outstanding durability & lightweight properties of aluminum composite.
The Classic Collection

- **Statuary Bronze**
  - PVDF 2
  - Gloss 25–35

- **New-Age Dark Bronze Mica**
  - PVDF 2 / Gloss 20–30

- **Driftwood Mica**
  - PVDF 2
  - Gloss 15–25

- **Atacama Bronze Metallic**
  - PVDF 2
  - Gloss 25–35

- **Hazelnut Mica**
  - PVDF 2
  - Gloss 25–35

- **Russet Mica**
  - PVDF 2
  - Gloss 25–35

- **Beige**
  - PVDF 2
  - Gloss 35–45

- **Castle Gray**
  - PVDF 2
  - Gloss 25–35

- **JLR Champagne Metallic**
  - PVDF 2
  - Gloss 20–30

- **Anodized Satin Mica**
  - PVDF 2
  - Gloss 20–30

- **Epernay Champagne Metallic**
  - PVDF 3
  - Gloss 25–35

- **Harvest Gold Mica**
  - PVDF 2
  - Gloss 20–30

- **Oyster**
  - PVDF 2
  - Gloss 20–30

- **Polyester White**
  - Polyester
  - Gloss 25–35

- **Alabaster**
  - PVDF 2
  - Gloss 25–35

- **Bone White**
  - PVDF 2
  - Gloss 25–35

- **Pure White (RVW)**
  - PVDF 2
  - Gloss 45–55

- **HWH Bio White**
  - PVDF 2
  - Gloss 40–50

- **Magnolia**
  - PVDF 2
  - Gloss 30–40

- **Market Pearl White Mica**
  - PVDF 2
  - Gloss 15–25

- **Sunrise Silver Metallic II**
  - PVDF 3
  - Gloss 25–35

- **Brilliant Silver Metallic**
  - PVDF 3
  - Gloss 25–35

- **Anodized Clear Mica**
  - PVDF 2
  - Gloss 20–30

- **Champagne Metallic**
  - PVDF 3
  - Gloss 25–35

- **Platinum Mica**
  - PVDF 2
  - Gloss 15–25

- **Silver Metallic**
  - PVDF 3
  - Gloss 25–35

- **Cadet Gray**
  - PVDF 2
  - Gloss 20–30

- **West Pewter Mica II**
  - PVDF 2
  - Gloss 15–25

- **Beachstone Gray Metallic**
  - PVDF 3
  - Gloss 25–35

- **JLR Gray Metallic**
  - PVDF 2
  - Gloss 25–35

- **Steel City Silver Mica**
  - PVDF 2
  - Gloss 15–25

- **MZG Gray Mica II**
  - PVDF 2
  - Gloss 30–40

- **Greyhound**
  - PVDF 2
  - Gloss 5–15

- **Anthracite Silver Metallic**
  - PVDF/FVE
  - Gloss 70–80

- **Graphite Mica**
  - PVDF 3
  - Gloss 25–35

- **Dusty Charcoal II**
  - PVDF 2
  - Gloss 25–35

ALUCOBONDUSA.COM / 800.626.3365
PRODUCT DESCRIPTION

MATERIAL COMPOSITION

- Aluminum interior and exterior facings in 0.020” nominal thickness
- 4mm total nominal thickness, including proprietary fire retardant core

SHEET WIDTHS

- Standard coil-coated width of 62” *
  * Some finishes are stocked in 40”, 49.2” and 50”
  Please refer to stock material list.
- Custom widths of 40” and 50” available on request

SHEET LENGTHS

- Standard coil-coated length of 196”
- Reflect Mirror is offered in 146”
- Custom lengths for coil coating: maximum of 400”
- Custom lengths for anodized: maximum of 216”

MINIMUM BENDING RADIUS

- The minimum bending radius of ALUCOBOND PLUS without routing the interior skin is 4”

AVAILABLE FINISHES

- PVDF - Polyester - Textured - Solids, Micas, & Metallics
- FEVE - Anodized - Print
- SMP - Brushed - Color-Shifting

PAINT FINISHES

All ALUCOBOND PLUS PVDF & FEVE finishes are coated in accordance with AAMA 2605 signifying the highest-performance exterior finish standard in the industry. AAMA 2605 finishes have the best chalk, humidity, and color change performance. SMP finishes meet AAMA 2604.

- **PVDF (Polyvinylidene Fluoride)** Two coat PVDF paint systems are applied to solid & mica finishes which are coil-coated over a pre-treated aluminum substrate with a primer & color coat at a nominal 1.0 mil thickness. When a two coat PVDF system is used, the primer allows bonding & color consistency in the color coat to show, in lieu of having the underlying metal affect color consistency. Note, the pre-treatment is not considered one of the paint “coats.” Three coat systems are solid & metallic finishes which are coil-coated over a pre-treated aluminum substrate with a primer, color coat, & clear coat at a nominal 1.5 mil thickness. The clear coat protects the aluminum flake from oxidizing & adds increased weatherability & protection against the elements.

- **FEVE (Fluoropolymer Based)** Base coat plus a clear coat are often used to protect bare finishes, ie. various brushed patterns. A transparent top coat is applied to the coil protecting the surface from the elements & preserves the aesthetic of the bare finish. Various tints can be applied to broaden the color palette & add to the aesthetics of a project.

- **PVDF/FEVE** Finish consists of 2 coats of PVDF & a clear coat of FEVE. On our Spectra finishes, the FEVE coat provides a higher gloss level & depending on the viewing angle, different wave-lengths of light are reflected, resulting in an ever-changing color gradient with iridescent highlights.

- **SMP (Silicone Modified Polyester)** Paint systems are a blend of polyester & silicon intermediates. Silicone acts to improve the gloss retention & weather resistance of the polyester coating.

CUSTOM COLORS

If you require a custom color for your next project, our color technicians will strive to match your desired color. Please note, custom color orders are subject to set-up charges and require a 1,000 sq. ft. minimum per color. Exact matches are not always possible due to different inks & pigments used in various industries & application methods. Matching a color created by a spray method, particularly a metallic, may not match with a color created on a roll coated method.

To ensure that we identify your color correctly, we require either:
- A hand sample of at least 1” x 1”, OR
- Pantone®, RAL, NCS or paint code reference

Please reach out to your local sales manager to aid with the process at:
ALUCOBONDUSA.COM/SALES-REP

Send the color sample along with your name, company name, address, phone number & email, as well as the project name, project location, type of finish and gloss level to:

3A Composites USA
Attn: Color Lab
208 West Fifth Street
Benton, KY 42025

For warranty information please contact your local ALUCOBOND Sales Manager.
