

DIBOND®

The ultimate Aluminum Composite Material (ACM) for the display & signage markets

DIBOND | Superior Surface, Superior Performance

- Comprised of two pre-painted sheets of .012" aluminum with a solid polyethylene core
- Premium, smooth surface is ideal for digital & screen printing as well as mounting
- Can be digitally printed on both sides
- Provides excellent durability in outdoor applications
- Superior surface protects expensive digital and screen-printed graphics
- Can be routed and returned to add dimension, or roll-formed to create dramatic curves
- Brushed metal and mirror finishes provide a high quality aesthetic for interior design applications
- A range of high gloss & matte color options
- Flattest panel on the market - won't bow or oil can
- Approximately 1/2 the weight of a solid aluminum sheet
- Self extinguishing; Class A fire rating (ASTM E-84)
- UL 879 certified for electric sign components

DIBOND

DIBOND BUTLERFINISH Brushed Metals | Quality Meets Design

- Specialized manufacturing process creates an embossed, brushed aesthetic
- High-quality brushed effect is ideal for store design, furniture construction, high-end store displays and signage applications
- Extremely unique results when direct digital or screen printed
- Provides the same product & fabrication capabilities of standard DIBOND

DIBOND COLORS

NEW! DIBOND Specialty Mirror Finishes | A Reflection of Quality

- Specialized manufacturing process creates a clear, reflective mirror surface
- High-quality finish is perfect for store design, high-end retail displays and signage applications
- Mirror surface doesn't flake off during cutting or fabrication
- Light weight & durable - won't break during transportation or installation
- Less sensitive to pressure than acrylic or glass - no warping
- Approximately 1/2 the weight of a conventional glass mirror

BUTLERFINISH® Brushed Metals

DIBOND is an excellent solution for exterior applications
