FINISH SYSTEMS

ALUCOBOND® Cool Systems are created utilizing a color and a Classic PVDF (Polyvinylidene Fluoride) finish system. When requesting a color, we will provide you with the resin type, the number of coats, the color name and the gloss level. ALUCOBOND® Spectra colors use high-quality fluorocarbon paint systems applied in a continuous coil-coated process to create a color-shifting surface. Depending on the pigment type and viewing angle, different wavelengths of light are reflected, resulting in an ever-changing color gradient with iridescent highlights. Now, your entryways, columns, and facades can make a bold statement without upsetting your budget.

PVDF or Polyvinylidene Fluoride Finish systems are the industry standard for metal architectural coatings. The SRI or Solar Reflectance Index with cool paint technology is a measure of a finish’s ability to reject solar heat, as shown by a small temperature rise. It is defined so that a standard black (reflectance 0.05, emittance 0.90) is zero and a standard white (reflectance 0.80, emittance 0.90) is 100. SRI values are subject to change based on paint supplier and availability. Please contact Customer Service for the most accurate listings as well as stocking of Spectra colors.

For warranty information please contact your local ALUCOBOND® representative.
HWH Bio White
PVDF 2
Gloss Level 40 - 50

Gloss Level 5 - 10
Spectra Cupral
Gloss Level 80
Interested in matching a custom color*? We can help you with that!

To get the process started please visit our website, alucobondusa.com. Create an account, if you haven’t done so already, and click on “My Account.” A drop down menu will appear with several selections. Click on “Custom Color Request” and fill out as much information as possible, some fields are required. Each request can have as many colors as you would like, so feel free to add several colors. Once you have completed the request and added as many colors as you want, click on “Submit Request.” You will receive an email confirming the submittal and any instructions. That’s it!

You can always click on “Account History” in the “My Account” drop down menu to see the status of your request.

*Custom colors are available but require a 1,000 sq. ft. minimum order and are subject to set-up charges. Exact matches are sometimes not possible. Matching a color created by a spray method, particularly a metallic, may not match with a color created on a roll coated method.
